

Outdoor Classroom at the Cascades

South Park

Overview This joint project of the Parks Foundation and Allegheny County offers visitors an immersive nature experience with Park Rangers to learn what lives and grows in their parks. This seating area is part of an education and programming hub, which also includes a five-acre meadow and the Cascades water feature. The Outdoor Classroom is the starting point for a half-mile environmental educational trail loop in development by the Parks Department.

Partners Allegheny County

Funding The Grable Foundation and Allegheny County

Allegheny County Parks Foundation

We work together to improve, conserve, and restore the nine Allegheny County parks.
